INFORMATION IN THIS DOCUMENT IS PROVIDED IN CONNECTION WITH INTEL PRODUCTS. **NO LICENSE, EXPRESS OR IMPLIED, BY ESTOPPEL** OR OTHERWISE, TO ANY INTELLECTUAL PROPERTY RIGHTS IS GRANTED BY THIS DOCUMENT EXCEPT AS PROVIDED IN INTEL'S TERMS AND CONDITIONS OF SALE FOR SUCH PRODUCTS, INTEL ASSUMES NO LIABILITY WHATSOEVER AND INTEL DISCLAIMS ANY EXPRESS OR IMPLIED WARRANTY, RELATING TO SALE AND/OR USE OF INTEL PRODUCTS INCLUDING LIABILITY OR WARRANTIES RELATING TO FITNESS FOR A PARTICULAR PURPOSE, MERCHANTABILITY, OR INFRINGEMENT OF ANY PATENT, COPYRIGHT OR OTHER INTELLECTUAL PROPERTY RIGHT.

UNLESS OTHERWISE AGREED IN WRITING BY INTEL, THE INTEL PRODUCTS ARE NOT DESIGNED NOR INTENDED FOR ANY APPLICATION IN WHICH THE FAILURE OF THE INTEL PRODUCT COULD CREATE A SITUATION WHERE PERSONAL INJURY OR DEATH MAY OCCUR.

Intel may make changes to specifications and product descriptions at any time, without notice. Designers must not rely on the absence or characteristics of any features or instructions marked "reserved" or "undefined." Intel reserves these for future definition and shall have no responsibility whatsoever for conflicts or incompatibilities arising from future changes to them. The information here is subject to change without notice. Do not finalize a design with this information.

The products described in this document may contain design defects or errors known as errata which may cause the product to deviate from published specifications. Current characterized **errata** are available on request.

Contact your local Intel sales office or your distributor to obtain the latest specifications before placing your product order.

Copies of documents which have an order number and are referenced in this document, or other Intel literature, may be obtained at: <http://www.intel.com/design/literature.htm>

All products, platforms, dates, and figures specified are preliminary based on current expectations, and are subject to change without notice. All dates specified are target dates provided for planning purposes only and are subject to change.

This document contains information on products in the design phase of development. **Do not finalize a design with this information.** Revised information will be published when the product is available. Verify with your local sales office that you have the latest datasheet before finalizing a design.

Code names featured are used internally within Intel to identify products that are in development and not yet publicly announced for release. Customers, licensees and other third parties are not authorized by Intel to use code names in advertising, promotion or marketing of any product or services and any such use of Intel's internal code names is at the sole risk of the user.

Introduction:

This User Guide provides application developers with information on how to install Intel AI PC Development Kit for systems running on Windows 11 Operating system.

Requirements:

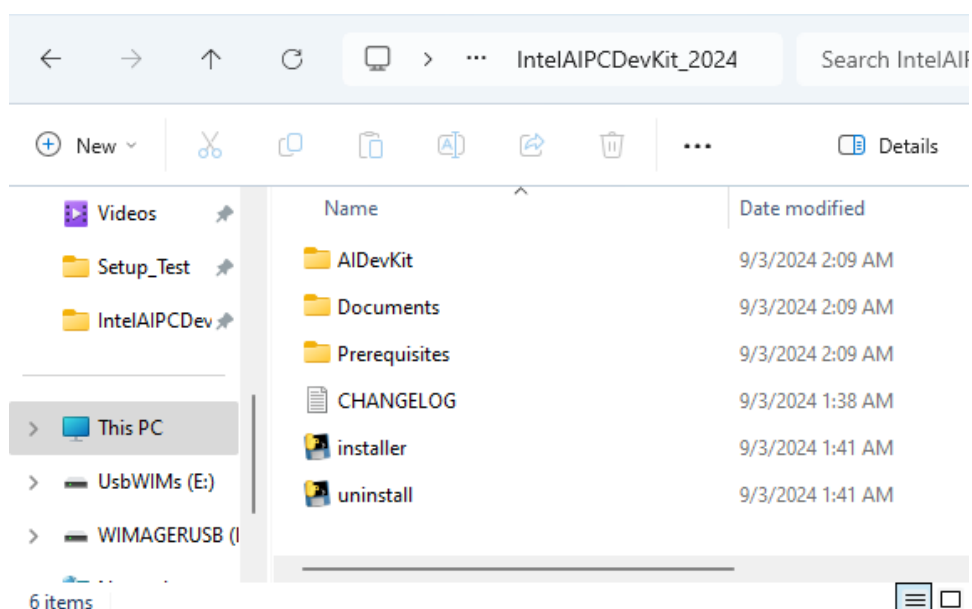

- The system should be running Windows 11 Operating System.
- The system must be connected to the Internet.

Setup Files:

- Locate the IntelAIPCDevkit_2024.10.2.zip in C:\Intel\Setup folder or download from [here](#).
- Unzip the contents of the zip to the Setup folder.

Installation Start:

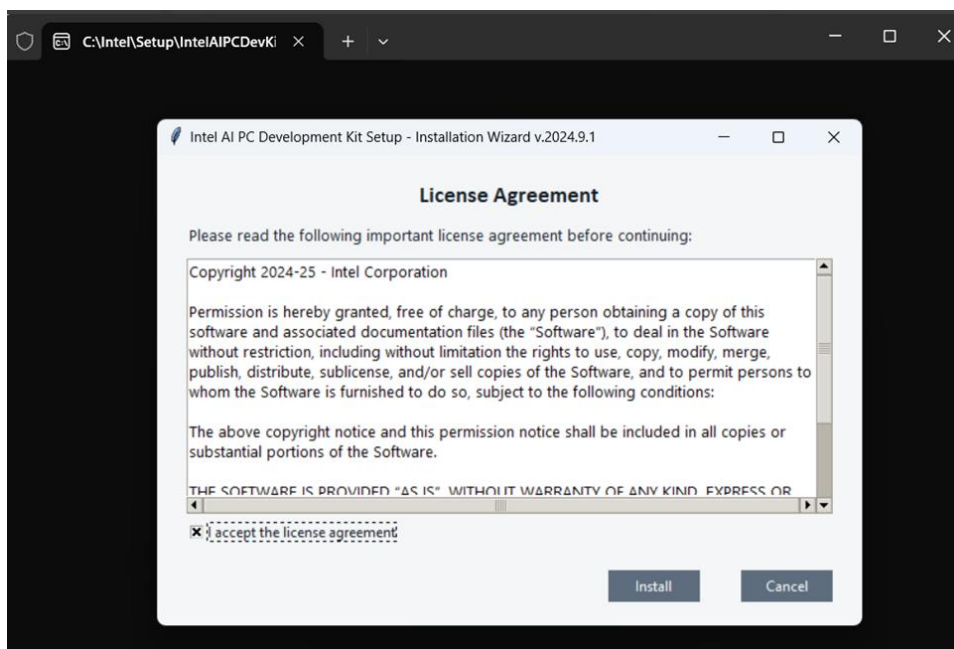

- Traverse to C:\Intel\Setup\IntelAIPCDevkit_2024.10.2 folder
- Run "installer.exe" with admin privileges.

Installation Steps:

License Agreement

- The license agreement will appear, click on "I accept the license agreement" to start installation.
- Click on Install.
- Installation will start, below software's will be installed in a sequence.
 - VS Code + Extensions
 - Visual C++ Redistributable
 - CMake
 - Git
 - OpenCV
 - VIM
 - IDSA
 - Openvino & Samples
 - Openvino Notebooks
 - Open Model Zoo
 - Python

Installations

- Accept the licenses as needed.
- The installations will continue with default installation options.

```
Administrator: C:\Windows\S... x + -

Installation Completion:

After the installation completes, the AI PC virtual environment will be available.

- A command line window will appear with a prompt in (aipc-venv) C:\Intel\AI PC Development Kit.

```
Administrator: C:\windows\system32\cmd.exe
Microsoft Windows [Version 10.0.22631.3374]
(c) Microsoft Corporation. All rights reserved.

(aipc-venv) C:\Intel\AI PC Development Kit>
```

- You will also see WebNN and JupyterLab launch in Edge Browser.

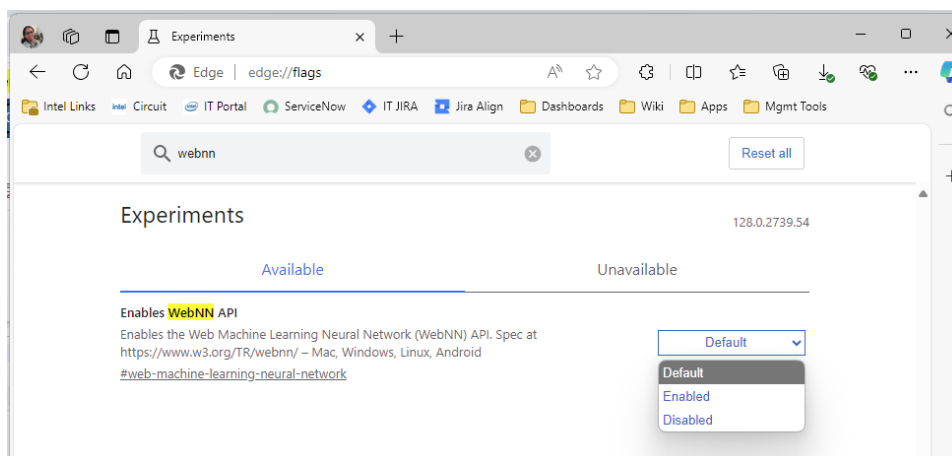

Setup browser to enable WebNN flags.

This is not enabled by default for security reasons.

- **For Google Chrome:** Type `chrome://flags` in the browser and search for WebNN. Select Enabled in the dropdown that appears.

- **For Microsoft Edge:** Type `edge://flags` in the browser and search for WebNN. Select Enabled in the dropdown that appears.

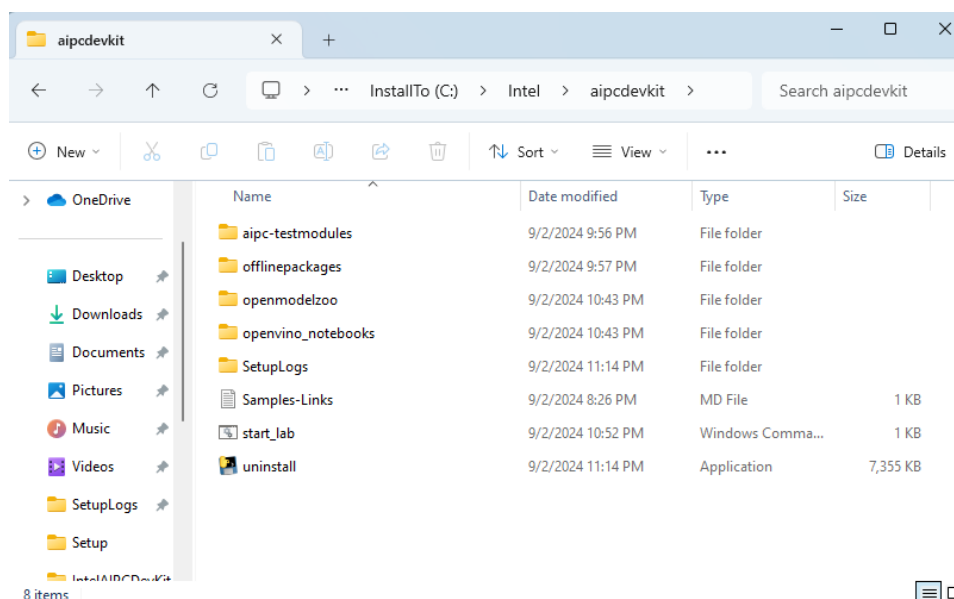

Jupyter Lab Usage:

You can restart Jupyter labs anytime after the installation, by running `start_lab.cmd` from the path - `C:\Intel\aiipcdevkit`.

Uninstallation:

- The uninstaller can be found in the path - C:\Intel\aipcdevkit
- Run uninstall.exe with admin privileges to remove all the software's that were installed as part of the installation process. Please note that IDSA is not uninstalled as part of this.
- Uninstallation logs also will not be removed and can be found in the path - C:\Intel\UninstallLogs

Logging:

- History of all the changes to the Intel AI PC Development Kit can be found here for reference - C:\Intel\Setup\IntelAIPCDevKit_2024.10.2\CHANGELOG.md.
- The tool provides logging of the installation & uninstallation process. All the install events are logged in individual log files and the summary in install.log file. Please check these logs if you encounter any issues during installation.
 - Install Logs location - C:\Intel\AI PC Development Kit\SetupLogs
 - Uninstall Logs location - C:\Intel\UninstallLogs
